Always Never

I wanna see you happy for once
So tell me what you hurt so bad
I wish that I could cheer you up
You're all that I really have

Call me back if you find the time
Ah ah ah
It's been a while and you're on my mind
Ah ah ah
I'm good, I'm good, I...
Ah ah ah ah
Same page... we used to be on the same page, yeah

I don't wanna suffer through it
But is that attainable?
Cause each time my heart gets broken
I fall down a deeper hole
The sun and the stars
Feel kinda far
Kinda like you
So please if you could

Call me back if you find the time
Ah ah ah
It's been a while and you're on my mind
Ah ah ah
I'm good, I'm good, I...
Ah ah ah ah
Same page... we used to be on the same page, yeah

This shit makes me way too anxious
I need it to go away
I wish that I could embrace it
But that means I'd have to stay
Finding my way is hard
But with you I know I could
I don't mean to sound alarmed
But please if you would

Call me back if you find the time
Ah ah ah
It's been a while and you're on my mind
Ah ah ah
I'm good, I'm good, I...
Ah ah ah ah
Same page... we used to be on the same page, yeah

I might have to come to terms with it
The way it is
Need a sign
Need a sign
Need a sign
