

# Space Between

Always Never

In the space between  
Was impatient and incomplete  
Indecision of what we've been  
I think I just need to see for myself  
For myself  
Oh no no

Did you think I would never know  
Did you think I would let it go  
Did you think I've been on my own  
On my own

(Here we go)

You work it work it work it now  
Say that we should work it out  
I'm done with all you have to say  
I gave you time to change your ways  
Oh no, no no  
Gotta go, but you know know know know

I take, I give, I give you take  
I question what was real and fake  
I threw the lemons in your face  
Go and make some lemonade  
Oh no, no  
She's sweeter than you know  
She's sweeter than you know, know know, know know

You put me in the space between  
I couldn't be what you asked of me  
Still you pushed me over everything  
Oh girl, I just need to think for myself  
For myself  
Oh no no

Did you think I would never know  
Did you think I would let it go  
Did you think I've been on my own  
On my own  
(Here we go)

You work it work it work it now  
Say that we should work it out  
I'm done with all you have to say  
I gave you time to change your ways  
Oh no, no no  
Gotta go, but you know know know know

I take, I give, I give you take  
I question what was real and fake  
I threw the lemons in your face  
Go and make some lemonade  
Oh no, no  
She's sweeter than you know  
She's sweeter than you know, know know, know know
