

## Ultimatum

Always Never

You had me lifted  
You had me lifted  
Denial turned to anger  
And it shouldn't matter  
But I hear the chatter  
And I love it  
But I hate it too

You can't ease my mind, like I want you to  
And I see it, fall in place so soon  
And it's clearly all or nothing  
But I gotta choose (got to choose)  
(Will you be back for me?)  
Yeah you know that I will babe  
Yeah you know that I will

You had me lifted  
You had me lifted  
Denial turned to anger  
And it shouldn't matter  
But I hear the chatter  
And I love it  
But I hate it too

'Cause this fear is real, you I don't wanna lose  
But I have to go, gotta pay my dues  
It's clearly all or nothing  
So I gotta choose

Choose  
Between this and you  
Between this and you  
Between this and you  
Between this and you
