

Wylin'

Always Never

I can't say I'm surprised anymore
I mean I felt it all, I felt it all
When you come crashing down
Whose supposed to save you now

When you're out here wylin
Phone buzzing on silent
And you don't give a fuck what your man think
Riding out the wave till the sun hit
Cause you out here wylin
Phone buzzing on silent
Living out a life that you can't keep
It's hard to settle down when you need me
Need me

I can tell, I can tell
You've been drinking all night long
Ringing up, ringing up
You've been calling on my phone
You're something else, you're something else
Never miss me till I'm gone
Never miss me till I'm gone

I can't say I'm surprised anymore
I mean I felt it all, I felt it all
When you come crashing down
Whose supposed to save you now

When you're out here wylin
Phone buzzing on silent
And you don't give a fuck what your man think
Riding out the wave till the sun hit
Cause you out here wylin
Phone buzzing on silent
Living out a life that you can't keep
It's hard to settle down when you need me
Need me

You drove to town
You made it down
Didn't think I'd see you here
You're staring hard, staring hard
But I'm past you steering clear
Cause you know how
You know how to take me back a year
How to take me back a year

I can't say I'm surprised anymore
I mean I felt it all, I felt it all
When you come crashing down
Whose supposed to save you now

When you're out here wylin
Phone buzzing on silent
And you don't give a fuck what your man think
Riding out the wave till the sun hit
Cause you out here wylin

Phone buzzing on silent
Living out a life that you can't keep
It's hard to settle down when you need me
Cause you out here wylin
Phone buzzing on silent
And you don't give a fuck what your man think
Riding out the wave till the sun hit
Cause you out here wylin
Phone buzzing on silent
Living out a life that you can't keep
It's hard to settle down when you need me
Need me

Will you show me some loving
You always show me loving
Even though you can't love
It's all you ever asked of me
