After Hours

Aly & AJ

You come alive for the night
And not a soul left inside
You've hard a long hard day
Don't make it harder on yourself

Everybody needs some time, take some time just to get away
Baby, I could find some time, I got time
Everybody needs some time, take some time just to get away
Baby, I could find some time, I got time on my hands

After hours when the city's in bed
After hours, that's when I'm out of my head
I'm a wildfire, it's when I look my best
After hours, after hours

Too many bills to pay (Ooh)
But all the loose sense can wait
You've had far worse days (Ooh)
So pour a drink, I'll do the same

After hours when the city's in bed
After hours, that's when I'm out of my head
I'm a wildfire, it's when I look my best
After hours, after hours

Ooh
Ooh
Ooh
Ooh

Everybody needs some time, take some time just to get away (Ooh
)
Baby, I could find some time, I got time on my hands

After hours when the city's in bed
After hours, that's when I'm out of my head
I'm a wildfire, it's when I look my best
After hours, after hours
After hours when the city's in bed
After hours, that's when I'm out of my head
I'm a wildfire, it's when I look my best
After hours, after hours
