

Break Yourself

Aly & AJ

Break yourself, break yourself
Break yourself, break yourself away
Break yourself, break yourself
Break yourself, break yourself away

It's an impossible day
Might be the time for a change
You hit the ceiling, burning the candle light
You wanna re-light the flame
It's an impossible day
Might be the time for a change
Always concealing, hiding the parasite
It's getting harder to tame

The devil's got me running wild
Been wandering naked for miles
The devil's got me running wild

Break yourself, break yourself
Break yourself, break yourself away
Break yourself, break yourself
Break yourself, break yourself away

It's an impossible day
Might be the time for a change
You hit the ceiling, burning the candle light
You wanna re-light the flame
It's an impossible day
Might be the time for a change
Always concealing, hiding the parasite
It's getting harder to tame

The devil's got me running wild
Been wandering naked for miles
The devil's got me running wild

The devil's got me running wild
Been wandering naked for miles
The devil's got me running wild

Break yourself, break yourself
Break yourself, break yourself away
Break yourself, break yourself
Break yourself, break yourself away

Break yourself, break yourself
Break yourself, break yourself away
Break yourself, break yourself
Break yourself, break yourself away
