

Joan of Arc on the Dance Floor

Aly & AJ

Every night
We walk the line
Every time
We step out of the shadows

People pass by
Always onto the next
With a dead heart
Yea, they're full of regret
They got sad eyes
Empty promises

(We don't need 'em)

We don't stop
Until mascara's on the dance floor
We say no
Joan of Arc is on the dance floor

At the stake
We don't fight the flames
Are you born in vain
If you die a savior

People pass by
Always onto the next
With a dead heart
Yea, they're full of regret
They got sad eyes
Empty promises

We don't stop
Until mascara's on the dance floor
We say no
Joan of Arc is on the dance floor

Knights in armor hide under eyeliner
Lights are low the night will take us higher
Higher

We don't stop
We say no

We don't stop
Until mascara's on the dance floor
We say no
Joan of Arc is on the dance floor

Knights in armor hide under eyeliner
Lights are low the night will take us higher
