

# Paradise

Aly & AJ

Running on bad ideas like they're nothing  
Racing through red lights like we're young  
Living on gut feelings, high rollers  
Wanting the time to stop and it won't

Went through the fields and walked through the water  
To find a place unlike our own  
Cut through the trees and pushed even further  
If we've arrived, how would we know?

Would you say we made it to our paradise, paradise?  
Will we know that it's paradise?  
Paradise, paradise  
Will we know that it's paradise?

Tracing the night sky  
Like it's gone, like it's gone, like it's gone  
Question our star sign  
Like they're wrong, like they're wrong, they're all wrong

Went through the fields and walked through the water  
To find a place unlike our own  
Cut through the trees and pushed even further  
If we've arrived, how would we know?

Would you say we made it to our paradise, paradise?  
Will we know that it's paradise?  
Paradise, paradise  
Will we know that it's paradise?

We made it to our paradise, paradise (Will we know?)  
Will we know that it's paradise?  
We made it to our paradise, paradise (Will we know?)  
Will we know that it's paradise?  
(We made it to our)

Went through the fields and walked through the water  
To find a place unlike our own

Oh, would you say we made it to our paradise, paradise?  
Will we know that it's paradise?  
Would you say we made it to our paradise, paradise?  
Will we know that it's paradise?  
Would you say we made it to our paradise, paradise?  
Will we know that it's paradise?  
Would you say we made it to our paradise, paradise?  
Will we know that it's paradise?
