Protecting Me

Aly & AJ

You, You're always there for me
When I need you most
Day and night you're by my side
Protecting me
When I feel like crashing down
You seem to be around
There you are
You're not that far cos

Whenever, where ever baby
You'll protect me
No matter what
Hold me tight with all your might And you'll never let me go
Protecting me

You listen to me when
I speak out loud and you
You know right when my heart's been bent
When my lifes tumbling around
You take me off the ground
You tell me everythings ok

Whenever, where ever baby
You'll protect me
No matter what
Hold me tight with all your might You'll never let me go

You'll never let me go
You'll never let me go
You'll never let me go

When its my turn (My turn)
To help you out (Help you out)
I glady lift you up without a doubt

(Whenever) Whenever,where ever baby
You'll protect me
No matter what
Hold me tight with all your might You'll never let me go (Let me go)

Whenever, where ever baby
I'll protect you
No matter what
Hold you tight, with all my might
And I'll never let you go (Let you go)

You, you're always there for me
When I need you most
Day and night you're by my side
Protecting me
Protecting me
