

# Sirens

Aly & AJ

Sacramento  
Day one  
Was hard to follow

Sacramento  
We're long gone  
But I haven't let go

It could've been me  
It could have been sirens over my body  
It could've been me  
Instead it's sirens over their bodies

Another day in America  
We wait around for the change that never comes  
Another day in America  
A mother lies on a sidewalk by her son

I can't look at her the same  
I won't look at her the same way

San Francisco  
Day two  
I just wanna go home

San Francisco  
The show must go on  
So I go on

It could've been me  
It could've been sirens over my body  
It could've been me  
Instead it's sirens over their body

Another day in America  
We wait around for the change that never comes  
Another day in America  
A mother lies on a sidewalk by her son  
I can't look at her the same  
I won't look at her the same way

Another day in America  
Another day in America  
Another day in America

Another day  
Another day
