

Don't I look so nice?  
I've been waiting all my life  
For this moment to arrive  
I sold my Sunday best  
Just to slip into this dress  
Have you seen my face?  
The look in my eyes?  
Do whatever it takes  
"I'll die for it"  
I wanna burn this house to the ground  
After playing with fire  
I wanna burn this map of the stars  
Now I'm on fire  
I spent all night  
In the hills without a view  
Dancing the soles right off my shoes  
Like only a wedding band could do  
Have you seen my face?  
The look in my eyes?  
Do whatever it takes  
"I'll die for it"  
I wanna burn this house to the ground  
After playing with fire  
I wanna burn this map of the stars  
Now I'm on fire  
I'll die for it  
I'll die for it  
Can you feel the heat?  
The flames are chasing me, oh  
Can you feel the heat?  
The flames are chasing me, oh (No)  
I wanna burn this house to the ground  
After playing with fire  
I wanna burn this map of the stars  
Now I'm on fire  
I wanna burn this house to the ground  
After playing with fire  
I wanna burn this map of the stars  
Now I'm on fire  
I'll die for it
