

Take Me

Aly & AJ

I've been spending my attention on you, on you
I don't wait long cause I got better things to do

When you gonna take me out?
Make a move and make it now
When you gonna take me out?
When you gonna take me out?

So much talking, swear that's all you ever do
Show me something before I show something to you

When you gonna take me out?
Make a move and make it now
When you gonna take me out?
When you gonna take me out?
When you gonna take me out?

I know that you would want it
If I could sink my teeth into you
I know that you would want it
If I could sink my teeth into you
First you gotta ask me out

I've been spending my attention on you
I don't wait long cause I got better things to do
When you gonna take me out?
When you gonna take me out?
When you gonna take me out?

I know that you would want it
If I could sink my teeth into you
I know that you would want it
If I could sink my teeth into you
