

Tears

Aly & AJ

Big tears fall down like puddles
When something cuts it bleeds
Big storms leave towns in rubbles
Shore just recedes

Take some time to secure
A stream of water to occur
But crying is a way to know
Your tears are how you learn and grow
So better off to let it flow
Stains on cheeks will come to know

Heartaches and hopes for healing
Through the raining of your tears
You'll learn the pain you're feeling
(ooooooooohhhh)

Take some time to secure
A stream of water to occur
But crying is a way to know
Your tears are how you learn and grow
So better off to let it flow
Stains on cheeks will come to know

Tears Tears
There may not be more than one of you
Appearing to be by your side
But if the ones you still love are here
To fight against time

Take some time to secure
A stream of water to occur
But crying is a way to know
Your tears are how you learn and grow
So better off to let it flow
Stains on cheeks will come to know
Tears Tears
