

## Way of Nature Way of Grace

Aly & AJ

There are two ways through life, the way of nature and the way  
of grace  
And it's days like these that feel like heaven when I see your  
face  
In the whole of time I've blinked but once, I'm blinded by your  
light  
No matter what we do or what we say, I wish we had more time

I was caught up in the beauty  
Like a scene out of a movie  
I saw you on a highwire, dance above the wildfire  
It felt like something holy  
Just like you'd always known me  
And something only you'd do, love is on the move

Love is on the move, love is on the move  
Love is on the move, love is on the move  
Love is on the move, love is on the move

There are two ways through life, the way of nature and the way  
of grace  
And it's days like these that feel like heaven when I see your  
face

I was caught up in the beauty (Beauty)  
Like a scene out of a movie (Movie)  
I saw you on a highwire, dance above the wildfire (Wildfire)  
It felt like something holy (Holy)  
Just like you'd always known me (Known me)  
And something only you'd do, love is on the move (You'd do)

Love is on the move, love is on the move  
Love is on the move, love is on the move

Our love it smiles through all the pain  
Our love it smiles through everything  
Our love it smiles through all the pain  
Our love, our love

It felt like something holy  
Like you'd always known me  
And something only you'd do, love is on the move

Love is on the move  
Love is on the move  
Love is on the move  
Love is on the move
