

# Flow

Alyson Stoner

Waiting on a feeling, edging like a knife  
We both know it's coming, hold another knife  
But we wanna try it, feel a little lost  
If you let me pilot, we can take off

Let it in, let it under your skin  
Spin you around, turn you upside down  
Let it in, let it under your skin  
Spin you around, turn it up

We can let it flow  
Breaking through the ceiling, leave 'em barely breathing  
Let your body go, all I know  
Is I'm alive for the moment  
Flow  
Breaking through the ceiling, leave 'em barely breathing  
Let your body go, all I know  
Is I'm alive for the moment

I'm alive for the moment  
I'm alive

Catch me while you're falling, lighter than the air  
We can be suspended, moving on a prayer  
Shifting like a shadow, let it come undone  
Wear a thousand faces, you're always the one

Let it in, let it under your skin  
Spin you around, turn you upside down  
Let it in, let it under your skin  
Spin you around, turn it up

We can let it flow  
Breaking through the ceiling, leave 'em barely breathing  
Let your body go, all I know  
Is I'm alive for the moment  
Flow  
Breaking through the ceiling, leave 'em barely breathing  
Let your body go, all I know  
Is I'm alive for the moment

Only got this moment  
Trust me, trust me  
Take my hand  
Giving in to  
Giving in to a waking dream

We can let it flow  
Breaking through the ceiling, leave 'em barely breathing  
Let your body go, all I know  
Is I'm alive for the moment  
Flow  
Breaking through the ceiling, leave 'em barely breathing  
Let your body go, all I know  
Is I'm alive for the moment
