

Make An X

Alyson Stoner

I'm gonna say this nice and slow
In little words so that you know
I don't ever wanna see you
And I wouldn't wanna be you

You used to give me butterflies
And now it feels like they all died
I'm all out of tears for you
Looking for a better view

I'll break it down
We're breaking up
Who's laughing now?
I don't give a huh?
So take a bow
Your time is up
And don't freak out cause you're about to

Watch me as I leave
You don't wanna blink
This is the part where I'm gonna peace out
You're no good for me
We're history
I'm gonna make an X out of you now

Always kept the bad boys close
Always let the good ones go
Didn't know what I deserved
Thank you for that lesson learned

I'll break it down
We're breaking up
Who's laughing now?
I don't give a huh?
So take a bow
Your time is up
And don't freak out cause you're about to

Watch me as I leave
You don't wanna blink
This is the part where I'm gonna peace out
You're no good for me
We're history
I'm gonna make an X out of you now
I'm gonna make an X out of you now
I'm gonna make an X out of you now
Ohhhh
(We're history)
I'm gonna make an X out of you now
I'm gonna make an X out of you now

Watch me as I leave
You don't wanna blink
This is the part where I'm gonna peace out
You're no good for me
We're history
I'm gonna make an X out of you now

I 'm gonna make an X out of you now
