

When It's Right

Alyson Stoner

I saw you color the air around you
You write the music a different way
You have no boundaries
They bend to your groove
And you got a secret
Whatever you say, I'll follow

Didn't expect, fallin' like that
Doesn't make sense
Never done this, but I don't wanna ever change this
Touching me right
Talking and just the way I like it
I can't help it

(Whoa, whoa, whoa, whoa)

Thank you for f*cking up my life (baby)
But, it got me changing my mind (honey)
Even better on the inside (baby)
No going back after the first bite
You know when it's right

(Baby)

I knew the minute I pulled you closer
I had to question the plans I had made
Gave up my cold world to keep you warmer
Now my life is naked
Is it worth the pain that it caused

Didn't expect, falling like that
Doesn't make sense
Never done this

But, I don't wanna ever change this
Touching me right
Talking and just the way I like it
I can't help it

(Whoa, whoa, whoa, whoa)

Thank you for f*cking up my life (baby)
But, it got me changing my mind (honey)
Even better on the inside (baby)
No going back after the first bite
You know when it's right

(Baby)

Caught in the middle
Known to be, no more
Caught in the middle
If we met for the first time now, would I say goodbye>

Sorry for f*cking up your life (baby)
I wonder if I'm still on your mind (honey)
And do you hide it on the inside (baby)

No going back after the first bite

Thank you for-for f*cking up my life (baby)

But, it got me changing my mind (honey)

Even better on the inside (baby)

No going back after the first bite

You know when it's right
