

Mean

Alyssa Reid

Why you always call, I don't wanna talk
I'm not in the mood, I don't wanna call you back, no
I might start a fight, I might end it too
I might get rude, cause I got an attitude

I'm not at the gym, don't wanna work it out
I wanna break shit, I don't wanna calm down, no
Imma be blunt, I'll get to the point
I get real annoyed, every time I hear your voice

I wanna be alone, right now, right now
Wanna be at home, right now, right now
Get you out my zone, right now, right now
I think you should go, I should be alone

I'm in another league, ball with the big ballers
And I can get mean, got your daddy on call
No caller ID, ya I do what I want
You don't wanna test me, cause I can get mean

I'm in another league, ball with the big ballers
And I can get mean, got your daddy on call
No caller ID, ya I do what I want
You don't wanna test me, cause I can get mean

Don't wanna test me, like it's a pop quiz
If you cross me then you got a death wish
I think you should leave, why you in my face
I don't need you, no, I just need space

I wanna be alone, right now, right now
Wanna be at home, right now, right now
Get you out my zone, right now, right now
I think you should go, I should be alone

I'm in another league, ball with the big ballers
And I can get mean, got your daddy on call
No caller ID, ya I do what I want
You don't wanna test me, cause I can get mean ya

I'm in another league, ball with the big ballers
And I can get mean, got your daddy on call
No caller ID, ya I do what I want
You don't wanna test me, cause I can get mean
