

Love Sick

AM

I don't want no love (I don't want no love)
I don't want no love, I don't want no love, and it makes me sick (And it makes me sick)
When they don't hold waps, don't hold waps, but they hold them dick (I don't want no love)
I don't want no love, I don't want no love, and it makes me sick (And it makes me sick)
When they don't hold waps, don't hold waps, but they hold them dick

Why the fuck would she hold them dick, she don't hold waps, she don't do shit
Send that home and deny that bitch, I don't know wagwan for the meaty tings (Wagwan)
Let me tell you about my lil' barbie, man can't chat she's fully on piss (She is)
Back that shank on anyone, said she's fully on road, who's realer than this? (Ying that)
Must've been '015 when I bucked her, she was just chillin' with tramps (Ugh)
I was like, "Nah B, you're better than that, come fuck with the 4's to the world and back" (To the world and back)
So, so we went on the move, and the guy was a friend of her dad (Ugh)
And I told her stay in the car, but she don't comply cah she got my back (Cah she got my back)
So we walked right into the house, I saw my man there on the chair (Ugh)
But she said that he won't be home, I'm like, "Where do we go from here?" (Like where?)
It got long when he called her govs, cah she let one shot in the air
Heard a scream and a drop upstairs, see his wife on the floor in tears
My lil' barbie went on the run from that day, I ain't seen her since
Names Ebony, but I call her Chinx, link man's wife in the back and dip
Don't know why they ain't press no charges, she might not walk but I guess she'll live (She'll live)
Names Ebony, but I call her Chinx, and from that day, I ain't seen her since

I don't want no love (I don't want no love)
I don't want no love, I don't want no love, and it makes me sick (And it makes me sick)
When they don't hold waps, don't hold waps, but they hold them dick (I don't want no love)
I don't want no love, I don't want no love, and it makes me sick (And it makes me sick)
When they don't hold waps, don't hold waps, but they hold them dick
I don't want no love, I don't want no love, and it makes me sick (And it makes me sick)
When they don't hold waps, don't hold waps, but they hold them dick (I don't want no love)
I don't want no love, I don't want no love, and it makes me sick (And it makes me sick)
When they don't hold waps, don't hold waps, but they hold them dick

Five years later, mad ting, thought that I saw Ebony in West (Aw)
It was her smile how she looked so long, but she ain't got tats on her face, I'm vexed (I'm pissed)
But it's life, and we move, and she goes by the name of Steph ('Ello)
And she ain't never seen guns this big, baby girl come ride with a G from ends (Gang)
It took months but you got my trust, B, not gonna lie you buss (You did)

But if the feds come through we're fucked, B, really wanna hold my stuff (Why?)
But when it comes to your ugly friends, you ride to the end, what about us? (Us?)
I can tell that you need some love, but it don't make sense 'cause you're hiding stuff
I was up in the trap at five (5 o'clock)
We was out on the streets at four (Fucking hell)
And I'm stressed that you ain't indoors (Ran around)
But your mum never raised a whore (Fucking hell)
And in fact, I'm appalled that I thought I could trust this fool (How?)
Let me know if you're down for the cause, that's M1 trips and it's back to the 4's (On the M)
She cried on the phone at night, talking 'bout, "Mally, my family's shit"
"My mom's on meds, won't talk to her kids, and the guy that I done last never got nicked" (Oh shit)
Now my heart's just filled with pain, it's so mad 'cause I miss my twin
Names Ebony, but they call her Chinx, and from that day, I ain't seen her since (Fucking hell)
