

All I Can Say

Ama Lou

I don't need to spell it out
All I can say is at least I have this now
It's not like me to settle down
But you left me spinning with no doubts

We wrote nothing down on paper
Surely it can't be this simple
It feels like nothing but true nature
Showed me what I really deserve

Didn't clock how I adored you
Where would I end up if I'd ignored you
Wrote too many songs 'bout things that went wrong
When you're the only thing that makes it right

I don't need to spell it out
All I can say is at least I have this now
It's not like me to settle down
But you left me spinning with no doubts

No one's ever made me safer
So soothing
This manifesting works
I can get back to them later
I'm free and letting go of getting hurt

Didn't clock how I adored you
Where would I end up if I'd ignored you
Wrote too many songs 'bout things that went wrong
When you're the only thing that makes it right

I don't need to spell it out
All I can say is at least I have this now
It's not like me to settle down
But you left me spinning with no doubts

Oh you're invited
You got me right here, for life
Side stepping's off of my mind
No labels binding
Our love, this kind is
For life

Didn't clock how I adored you
Where would I end up if I'd ignored you
Wrote too many songs 'bout things that went wrong
When you're the only thing that makes it right
