

Wire

Ama Lou

I love you more but better when the sun is down
And I love you more when you ain't been around yeah
I have written about cha
I won't go that way
Even if I try
I will look to escape
Even if I hide
Yeah yeah yeah yeah yeah

Even when I pull you round I can't replace
And I think you're harder than what I would say
How am I gonna teach me right if I won't trade
And I think that beats me right what would you say ?

Even if its cut so long I will never let your paper thin out
Even with a with a court order I will never let you bale me out
I have never really ran so strong
I have only ever ran me down
I have only just noticed that it was already written out

I love you more but better when the sun is down
And I love you more when you ain't been around yeah
I've been thinking about yah
I won't go that way
Even if I try
I will try to escape
Even if I hide
Heyyahyeah

I know you tried shouting well right in my face
No reaction call me anything but my name
I have no regrets now tell me the same
Fuck being cold I just don't play that game

How the way they aiming now
Pardon my reason for bailing out
Buy into the fish forgasey, how
Even if you really hate this sound
I have only ever ran so strong
You will never really run me out
I have only ever known this
Cuz it was already written out

I love you more but better when the sun is down
And I love you more when you ain't been around yeah
I have written about ya
I won't go that way
Even if I try
I will look to escape
Even if I hide
Yeah yeah yeah yeah yeah

I love you more
I love you
I love you
