Wrong Lesson

Ama Lou

Doesn't mean less when you make that sound
You Come at me best when you spread shit round
Only works well when you ponder spontaneity
There's nothing really worse than being held as a traitor
If I wasn't true then I think I would be fake (ah)
And you'd count the time I really wouldn't wait (ah)

Why your hands are so sticky
You're too high no you can't come with me now
It's too rushed. Yes it is that easy
But doesn't seem worth it
If the capital is co-con (spiracy)

I cry your crazy
It's too crowded for me but
I lie on your lazy
Force is not the way too

Doesn't mean less when you make that sound
Come at me best when you spread shit round
Only works well when you ponder spontaneity
There's nothing really worse than being held as a traitor
If I wasn't true then I think I would be fake (ah)
And you'd count the time I really wouldn't wait (ah)

You think I learnt the wrong lesson
But you don't know that I'm constantly testing myself
And no I count my own blessings
But if it bothers you then I'll make it seem messy

I cry your crazy
It's too crowded for me but
I lie on your lazy
Force is not the way too

Doesn't mean less when you make that sound
Come at me best when you spread shit round
Only works well when you ponder spontaneity
There's nothing really worse than being held as a traitor
If I wasn't true then I think I would be fake (ah)
And you'd count the time I really wouldn't wait (ah)

Count the times I
Breathe your own line
Cry fire while your down down
And I thought the line
Sent to bleed the time dry
I assume we're not high

Doesn't mean less when you make that sound
Come at me best when you spread shit round
Only works well when you ponder spontaneity
There's nothing really worse than being held as a traitor
If I wasn't true then I think I would be fake (ah)
And you'd count the time I really wouldn't wait (ah)

You count the times I really really wouldn't wait for you (Ah ah oh)

You count the times I really really wouldn't
You count the times I really really wouldn't wait for you (Ah ah oh)
I count the times I count the times
