

B2B, bi to bi
Fuck on me, fuck you back
I unleash, you attach
Fuck on me, fuck you back

There's times when I'm Perc'n and wavy and need to let go
There's ways we can turn and persuade it, I'm giving you some

I've been into you, I like what we do
Now come into me, see my point of view
I've been into you, I like what we do
Now come into me, see my point of view
I've been into you, I like what we do
Now come into me, see my point of view
I've been into you, I like what we do
Now come into me, see my point of view

B2B, bi to bi
Fuck on me, fuck you back
I unleash, you attach
Fuck on me, fuck you back

There's times when I'm Perc'n and wavy and need to let go
There's ways we can turn and persuade it, I'm giving you some

I've been into you, I like what we do
Now come into me, see my point of view
I've been into you, I like what we do
Now come into me, see my point of view
I've been into you, I like what we do
Now come into me, see my point of view
I've been into you, I like what we do
Now come into me, see my point of view

I cuddle up, kiss, codeine
You never done shit for me, my heart
Rub me on tit, I'm genie
Now you come wish on me, my heart
Missing all the kiss and sloppies
You really wanna slit and stop my heart
Smoking on us, I'm nodding
Dirty, you wish and wash my heart

You'll never see me cry
Are you my virtue or vice?

I cuddle up, kiss, codeine
You never done shit for me, my heart
I'm really off hills, one tree
Don't wanna be nothing but me, my heart
I can't even miss your body
Your spirit needs too much work, my heart
I'm certain of us, I'm nodding
Really gotta lift and wash my heart

I'm numbing off shit morphine
Never done much for me, my heart

Rubbing on tit, I'm genie
Couldn't even wish you peace, my heart
I can't even miss your body
Your spirit needs too much work, my heart
I'm smoking on us, I'm nodding
Dirty, you wish and wash my heart

Want me in the dark
Want me tearing home
I was in my truck
It took me years to see the signs
Bitch, I was on the cusp
Tears in the rain
Diamonds into dust

Rain, rain
Rain, rain
Rain, rain
Rain, rain
Rain, rain
Rain, rain
Rain, rain
Rain, rain
