

Sign, baby, what's your sign?  
Capricorn or Pisces?  
We will get to mine  
Cancer, must be nice  
Scorpio at night  
Fire's what you like?  
Fuck till moon and rising

I met a girl, she a saint and a demon  
Two like Tia, two like Nina Sky  
Me and her, it felt like threesomes  
Must be Gemini  
She too nice and she too lethal  
I would not advise

Fire how you move your body  
Down to earth but way too high  
The water on my neck, come make it warm, it's warm

Air, I need some air  
Air, I need some air  
Air, I need some air  
Air, I need some air, air

Fire how you move your body  
Down to earth but way too high  
The water on my neck, come make it warm, it's warm

Air, I need some air  
Air, I need some air  
Air, I need some air  
Air, I need some air, air

Air, I need some air  
Air, I need some

There's no way you're Virgo  
Cute but far from loyal  
Gotta be a Leo  
You so fucking spoiled

Maybe you're a Sag  
You nag  
You nasty  
Aries bitches bad  
But damn, I'll pass please

Crazy like Aquarius  
Text me when you're serious  
Tease me like a Taurus  
Them Libra bitches horrible, baby, just tell me  
Baby, just tell me

Fire how you move your body  
Down to earth but way too high  
The water on my neck, come make it warm, it's warm

Air, I need some air  
Air, I need some air  
Air, I need some air  
Air, I need some air, air

Fire how you move your body  
Down to earth but way too high  
The water on my neck, come make it warm, it's warm

Air, I need some air  
Air, I need some air  
Air, I need some air  
Air, I need some air, air
