

JUMPING SHIP

Amaarae

You gon' make me leave
You gon' make me leave
You gon' make me leave

You gon' make me leave
The one I'm with
Jumping ship
Done with this, more than done with this
Pour me another drink
Take another sip
And another sip
Jumping ship

Hottie, you're an item I wanna pay for
I've got attention if you make more time
I know we spent it, I wanna waste more
Push up on me 'till I'm feelin' it
Droppin' it, look how you killin' it
Tell me that you needed space
I'm out here pulling my weight
I left my man on the phone
I left my girls in LA
Don't tell me you into the way that I moan
When you wanna keep me up late
Can't keep that body in place
I gotta move out the way

You gon' make me leave
The one I'm with
Jumping ship
Done with this, more than done with this
Pour me another drink
Take another sip
And another sip
Jumping ship

Jump, jump, jumping ship
Pretty girls like to jump that ship
Wickedest seas are killing bastards
You are the curse
But it is a blessing
Shorty move like Tetris
Come through, and I wreck it
Little devil with a passion
Huh, suspend it
Me want to give her the serpent
Me want to give her the perfect style
She come through with a joystick
Hoping she can ride it
Come see as I pick up she curse me
One step, and I bring out the ghetto
Come bring out the wrath
The beast is a realer one
Buss up the chakra

You gon' make me leave
The one I'm with

Jumping ship
Done with this, more than done with this
Pour me another drink
Take another sip
And another sip
Jumping ship

If you wanna hit the molly, go and party
Pop up out in Abu Dhabi
That's enough to keep me shawty
Ima go ahead and fuck with you regardless
Wrap a blunt and get me started
Hold the fire, light my body up and try it
Light my body up and try it
You gon' make me leave the one I'm with jumping ship
Pull up and pop it in place
Show me how dirty you play
Please, just like this
Yea, just like this
Be the one I'm with

You gon' make me leave
The one I'm with
Jumping ship
Done with this, more than done with this
Pour me another drink
Take another sip
And another sip
You gon' make me leave
The one I'm with
Jumping ship
Done with this, more than done with this
Pour me another drink
Take another sip
And another sip
Jumping ship

Hottie, you're an item I wanna pay for
