Amaarae

I'm what you need, shawty, you know I can be your protector  
And if you need a cut, you know I'll be your selector  
Never fear, you know I never finna neglect ya  
I don't do it for the money, your love is my nectar  
Everyday, everyday  
You know, I'm starting to run outta faith

Baby, I never thought you'd do me this way  
That way, front way, back way  
Don't even know what to say  
But you're always on my mind, I can't erase ya  
How you treat me ice cold, like glacier?  
I tried and tried, but I still can't replace ya

You're the only one that makes me feel the way I do  
I won't waste my time with no one else, baby, just you  
Tryna chase ya  
But you treat me ice cold, like glacier  
Uh, hey, plenty paper  
So, baby, throw it back like it's no chaser

Do you like it like I like it?  
Do you like it like I want it?  
Do you need it like I need it?  
You know your lovin' completes me

Do you like it like I like it?  
Do you want it like I want it?  
Do you need it like I need it?  
You know, your loving completes me

Can we pop it like a pistol  
We can do it, no issue  
You're right here, but I miss you  
Wanna love, wanna kiss you  
You get me hot, like missile

Come seek me when you're ready  
I'm freaky, if you let me  
Mmm, oh-oh-oh  
Yeah-yeah  
It's only you, just you, that gets me  
That can touch, that can finesse me  
Oh, yeah  
No

Everyday, everyday  
You know, I'm starting to run outta faith  
Baby, I never thought you'd do me this way  
That way, front way, back way  
Don't even know what to say
