

# Princess Going Digital

Amaarae

You know what?  
I finally figured it out  
You know what loving you is like?  
Loving you is like  
Fye, fy  
Fye, fy  
Click, click  
Fye, fy  
Fye, fy

I been going out like a bad bitch  
I been looking fine through the madness  
I can't find a nigga who can handle  
I can't find nobody that can manage  
But then I found you  
Can we go?  
It's whatever you want  
Can you move it on the floor?  
It's whatever you want  
Can we bring it to the back?  
It's whatever you want  
Can we do it on the track?  
It's whatever you want

Baby hold me down  
I got feelings for you now  
Way you love me where it hurts  
We can talk, just stick around

'Cause I got more to say  
You know it's just game girl you know how it goes  
But I don't wanna play  
The feeling too strong now I really gotta go, I've been in the streets

In the streets  
Streets, in the streets  
Take me out the streets  
Streets, in the streets  
In the streets  
Streets, in the streets  
Take me out the streets  
Streets, in the streets  
In the streets  
Streets, in the streets  
Take me up the streets  
Streets, in the streets  
I've been in the streets  
Streets, in the streets  
I've been in the streets  
Out in the streets  
Streets, in the streets  
In the streets  
I've been in the streets, I've been in the streets

I got everything I can ask for  
I got all the cars, the clothes, the hoes  
I could put a 100 on the dashboard

I'm trying to find love  
But niggas be doing the most

Is it you? Can we go?  
It's whatever you want  
Can you move it on the floor?  
It's whatever you want  
Can we bring it to the back?  
It's whatever you want  
Can we do it on the track?  
It's whatever you want

Baby hold me down  
I got feelings for you now  
Way you love me where it hurts  
We can talk, just stick around  
'Cause I've got more to say  
-You know it's just game girl you know how it goes  
But I don't wanna play  
-The feeling too strong now I really gotta go, I've been in the streets

In the streets  
Streets, in the streets  
Take me out the streets  
Streets, in the streets  
In the streets  
Streets, in the streets  
Take me out the streets  
Streets, in the streets  
In the streets  
Streets, in the streets  
Take me out the streets  
Streets, in the streets  
I been in the streets

Ghetto  
Ooh when you do it to the right  
In the streets  
Move when I move, I like it baby  
I been in the streets  
Do it to the left for the night  
I been in the streets  
Move when I move, I like it baby  
Ooh when you do it to the right  
You gotta get it together  
Move when I move, I like it baby  
You gotta get it together  
Do it to the left for the night  
You gotta get it together  
Move when I move, I like it baby  
You gotta get it together

Streets  
In the streets  
Streets, in the streets  
Take me out the streets  
Streets, in the streets  
In the streets  
Streets, in the streets  
Take me out the streets  
Streets, in the streets  
In the streets  
Streets, in the streets

Take me out the streets  
Streets, in the streets  
I been in the streets  
Out in the streets

In the streets  
I been in the streets  
I been in the streets
