

Reckless & Sweet

Amaarae

See my blessings
Feel my essence
Look how I just stepped in
Please don't try my patience
Glory to lord of mercies
Gone off the high I'm surfing
Touching cloud9, I'm searching
Don't touch me I get nervous, nerves

Cause I got too much
Cause my money gets too long
Looking at me you get goosebumps
Baby wanna roll with a rude one
Say she want money get her boobs done
Come to crib take ya shoes off
Now you tryna act brand new huh
Sure you wanna act brand new huh
Move on

Call me when the money
Come come come come come
Call me when the money
Come come come come come
To the money
Imma run run run run run
To the money
Imma run run run run run

Call me when the money
Come come come come come
Call me when the money
Come come come come come
To the money
Imma run run run run run
To the money
Imma run run run run run

It wasn't the way
I squint my eyes when I'm serious
Or when I catch you stare
At me making my bed in the mirror
I needed a cleanse
Anointing my mind, my spirit
The evil-er eye
Has warned me of your intentions
It's cause my money's just too long
The thought of me spending gives you goosebumps
Now lie to me tell me I'm wrong
My heart I was making a home
Angel in light till she grew horns
Bu-like-gatti she was two-toned
My Shawty Amour
Is this the life that I'm owed?

Call me when the money
Come come come come come
Call me when the money

Come come come come come
To the money
Imma run run run run run
To the money
Imma run run run run run

Call me when the money
Come come come come come
Call me when the money
Come come come come come
To the money
Imma run run run run run
To the money
Imma run run run run run
