

## Spend Some Time

Amaarae

I need your patience  
I need your time  
I need your rhythm  
Need you to be mine  
I need your hunger  
I need your faith  
I need to, I need to  
Need to see your face

'Cause it's been forever, and forever is a long time  
For you to stay away, am I no longer on your mind?  
Baby, it don't, it don't matter if you're on or you're offline  
All I want from you is to spend some time

Spend some time  
Spend some time  
Spend some time  
Spend some time  
Spend some time  
Spend some time  
Spend some time  
Spend some time

I no good fit, leave this girl  
She did bust my brain  
She did bust my brain  
Everything, just they 'cause me pain  
When I leave you, girl  
You don't say don't be this way  
Oh, I just want you  
Baby, you see me when I'm with you  
Calling for you at night  
Oh, my darling, would you love me?  
Girl, if I had love and money, would you be still with me?  
It's all over  
I can't be your lover  
I just wanna spend some time  
(We should spend some time)

Spend some time  
Spend some time  
Spend some time  
(I just wanna) spend some time  
Spend some time  
Spend some time  
Spend some time  
(I just wanna) spend some time

I want this my way  
And I want it the right way  
The right way
