

# Be The Flame

AmaLee

Like a phoenix I am flying, rising from the ashes  
As many times as it takes  
In a world so dark, I'll be the flame

This world will laugh while beating you down  
Well, I'm sick and tired of the cold ground  
There's gotta be more than just this  
I'll find my way, yeah bet on it  
Thought I had to fight this world on my own  
But you came along, banished that lie  
You were my light

Hand in hand, we will stand  
We will rise above the rest  
Like the fire in my soul, yeah, let's go and show the world  
What happens when you put us to the test

Watching the shadows grow and we will overcome it  
Breaking through like dawn  
I want you to know this world  
It's burning bright in my soul  
I can't just vanquish this, the spark that we've ignited  
A fire out of control  
I was once so lost and so alone  
But now I feel at home

Like a phoenix I am flying, rising from the ashes  
As many times as it takes  
In a world so dark, I'll be the flame
