

BREATH // LESS

AmaLee

Show me the madness that you keep in
Don't lose the fear in you, young in belief
Washed my hands of that for this?
Sold myself for this hopeless loop

I feel I've seen your face somewhere sometime?
You freeze my blood, and send ice down my spine
Take a look in the mirror
Face my doppelganger
Who are you? Aren't you

Beware of attentions, entourages and mates
You are what you do
Suppress your intentions, ain't got to be a big head
You are what you fool

Right now
Burn your soul, all or nothing
Burn it out 'til you're losing all reason
Forget the sole reason to drive it
Just to scribe your existence
Not a crime, your insistence
Die another day
So do I
Burn my soul, all to nothing
Burn it out, let me charge in and advance
I'm waiting for the chance to beat it
Even though my body's shaking
I'll give it all, deadly loving
'Cause you make me feel
Breathless

Show me the sadness that you keep in
Through all our youth we remained so naive
All at once misfortune rang
So-called Yin and Yang had claimed us
Are you really trying to save her right now?
Ready to give your life, willing or not
I have seen visions of you
Unwanted deja vu
All 'bout you, to warn you

Beware of attentions, entourages and mates
You are what you do
Depress your mentions, ain't got to be a bighead
You are what you fool

Right now
Burn your soul, all or nothing
Burn it out 'til you're losing your reason
Forget the sole reason to drive it
Just to scribe your existence
Not a crime, your insistence
Die another day
So do I
Burn my soul, all to nothing
Burn it out, let me charge in and advance

I'm watching for the chance to beat it
Even though my body's shaking
I'll give it all, deadly loving
'Cause you make me feel
Breathless

Right now
Burn your soul, all or nothing
Burn it out 'til you're losing your reason
Forget the sole reason to drive it
Just to scribe your existence
Not a crime, your insistence
Die another day
So do I
Burn my soul, all to nothing
Burn it out, let me charge in your advance
I'm watching for the chance to beat it
Even though my body's shaking
I'll give it all, deadly bumping
'Cause you make me feel
Breathless
