

Butter-Fly

AmaLee

My broken wings dream of sky
And they'll never be able to fly
Only if we never try
ON MY LOVE

If I could become just one thing
I'd be a butterfly - free-soaring
I really miss you
So now finally, I'm on my way

Let's focus on the people we trust
And leave all of the doubt behind us
So, if you're ready
Can we go, 'cause there's no time to waste

I wanna know - oh oh oh oh
If the sky above is only for show
I wanna know - oh oh oh oh
What tomorrow will bring
So let's spread out our wings

Maybe this world's an infinite dream
And there's only hope living in me
May it not fail me now
We'll turn this thing around
and bring back the lovin' somehow

My broken wings dream of sky
And they'll never be able to fly
Only if we never try
ON MY LOVE
