Database

AmaLee

Counter-action rising
Yeah, we are ready for the punch-line
There's no use with all your gimmicks
So check this out!

Login you damned one's
Crush the hope to compromise
The noise comes
Are you ready to bow?
What 'bout the antidote for the jammed and hypnotized?
Rend the lie that covers
Who's the real sucker now?!

Embrace the pain as if it's nothing new
Like a resilient rose, in vain, it blooms
Throw out ya words of doubt and leave this town,
Say a goodbye cause you can't back down now
Yeah, all you gotta do is shout it out
Just sing WOAH OH OH OHH

Database Database
Just living in the Database whoa-oh!
A wall of pure fiction's cracking in my head
As the addition of my world still spreads
In The Database Database
Just living in the Database whoa-oh!
It doesn't even matter if there is no hope
As the madness of the system grows

Cracking the key for the real clue
Mass redemption reigning on
But we know we've been longing for this
Cut it out!
The plot that deceived you!
Drop the rebel sound
Shut the system down
Reveal the never found now!

Whether it's fiction or reality
If you are ever torn away from me,
I'll fight the world until we're side by side
Watching the ruin grow before our eyes

Damn you all, ya big airheads,
Yeah, I damn you all, ya big airheads

And as you light these seething hearts
They catch fire, and the words, they overlap

Hey, wait a minute...
What happened?!
The data's all gone!

I got a bogus calculation,
That's driving my frustration
Statistics going haywire,
But quickly disappearing

I don't think you can function in this DATABASE,
I think you better polish up your skills at your own pace... yeah
N-n-no
Yeah-Yeah-Yeah

Damn you all, ya big airheads,
Yeah, I damn you all, ya big airheads

Damn you all, ya big airheads,
Yeah, I damn you all, ya big airheads!
