

Drink Your Light

AmaLee

If you're scared of my bark then you'll be scared of my bite
But maybe that's baby that's the thing that I like
If you're scared of my bark then you'll be scared of my bite
But maybe that's baby that's the thing that I like

I don't run in a pack, I like it solo
My blood is singing, glittering gold
And if I want it I take it
I bear my teeth and claim it
And you don't have to like it
But it's still me who's in control

Cause baby I bite back
When the sky turns black
And the stars light up your soul
Cause baby I bite back
When the sky turns black
And the stars light up your soul

If you're scared of my bark then you'll be scared of my bite
But maybe that's baby that's the thing that I like
Let me drink your light
Let me drink your light
If you're scared of my bark then you'll be scared of my bite
But maybe that's baby that's the thing that I like
Let me drink your light
Let me drink your light

It wasn't merely fate that got me this throne
I got a taste for power and bone
And if I crave it I chase it
I hunt it down and slay it
And I don't gotta say it
But you don't want me provoked

Cause baby I bite back
When the sky turns black
And the stars light up your soul
Cause baby I bite back
When the sky turns black
And the stars light up your soul

If you're scared of my bark then you'll be scared of my bite
But maybe that's baby that's the thing that I like
Let me drink your light
Let me drink your light
If you're scared of my bark then you'll be scared of my bite
But maybe that's baby that's the thing that I like
Let me drink your light
Let me drink your light

(Let me drink your light)

Ooh, I'm a sick maniac with fire for soul
But I feel alive my other side is now in control

If you're scared of my bark then you'll be scared of my bite

But maybe that's baby that's the thing that I like
Let me drink your light (Let me drink your light)
Let me drink your light (Let me drink your light)
If you're scared of my bark then you'll be scared of my bite
But maybe that's baby that's the thing that I like
Let me drink your light (Let me drink your light)
Let me drink your light

(Let me drink your light)
(Let me drink your light)
(Let me drink your light)
