

## Escape

AmaLee

I'll carry on, forever on, while dreaming of that fateful day  
Because of you, there's only you, just give the word we'll run  
away  
I pray they'll know, one day they'll know that some cigars you  
cannot take  
So take my hand, my waiting hand, we'll both be free, just call  
my name

I've waited all my life, to find someone like you  
So then onwards star, will my wish come true

I'll carry on, forever on, while dreaming of that fateful day  
Because of you, there's only you, just give the word we'll run  
away  
Is it a dream, only a dream, is it my fault for having faith  
When you return, will you return, will we, at last, find our es  
cape

I've waited all my life, to find someone like you  
So then onwards star, will my wish come true  
I've waited all my life, to find someone like you  
So then onwards star, will my wish come true  
I've waited all my life, to find someone like you  
(Is it a dream, only a dream, is it my fault for having faith)  
So then onwards star, will my wish come true  
(When you return, will you return, will we, at last, find our e  
scape)

Another star, sweet shooting star, oh won't you please, grant m  
y wish
