Fleeting Lullaby

AmaLee

I'm sick and tired of being alone
Wanna be connected
Have a bond to hold on to
Just gonna lay it all out
How I feel, honest (shout out)

Listen, baby, makin' you happy
Whether you like it or not
Gonna be up in your ears
No runnin' away
Just wait for the beat to drop

Listen for a surprise
Every word will entice

Reality is overrated
You're not gonna outthink me
I thought of everything
You'll never get it
You can't keep up

So just stay out of my way
Be my good, good, good boys and girls

You think you're so tough
Well I've had enough of it
I got something here that's better

So come on up and we can sing together
Fun unfettered
Get on stage - Let's go

Wanna make your day
Do my thing loud and proud - Hey
No shame in what I create
I got this down

Everything exactly how we want it
This is a utopia

Been a long time coming
Now it's here to stay
You can't deny

It's a miracle of mercy
You can't stop it if you try
I know it's possible
I'm not trying to ask too much

I wanna know how to give you what you want
Extricate all you got deep inside
Don't need nothin' in return
Honey stay with me or I'll freak out

Wouldn't you rather be floatin' up high?
To your cares, say "bye"?
Fanservice flowin' so free you could die

Just you and I, no ending in sight

It'll be super fun
Don't you know I'm gonna make you a zealot
In here all logic has got to go

Please don't go
Nobody here gets to leave
Oh no no no no

I got the mic and I'll never say goodbye

Just follow the beat
Let the melody inspire
Luring you into enchantment

So come on up and we can sing together
Fun unfettered
Get on stage - Let's go

Wanna make your day
Do my thing loud and proud - Hey
No shame in what I create
I got this down

Everything exactly how we want it
This is a utopia

Been a long time coming
Now it's here to stay
You can't deny

It's a miracle of mercy
You can't stop it if you try
I know it's possible
I'm not trying to ask too much

Salvation's got to come
This generation's done
I'm tired of never being listened to

The screams were never heard
The suffering endured
But no more

Watch me rock this
They got nothing
Up to me
You just need to stay out of my way

There's no turning back now
Gonna be singing jointly for all time

Blowin' your mind with my face
Drummin' to burst your ear drum
Bring in the bass, guitar and keys
Macaferri got nothing on me, no

Let me hear you shout
Banish every gaslight
Let clarity shine
Gotta clean up this brainwash
Don't let 'em tell you lies

Heads up, let my song clear your senses
All you really need is my true voice
