It's your haze of delusions versus reality
Keep stirring the pot to find your individuality
Delete another problem that is plaguing your mind
From day to day, from start to end, that's the entertainment of our lives

Boom Boom Boom!
Dancing through the skies
Let's celebrate our time
And party while we're still alive
Boom Boom Boom!
Dancing through the skies
Kick your worries to the side
Now it's time to aim up high

Everybody put your hands up!
We'll be flying
And I can be your wings!
Let's both get lost
within a deep hypnotic dream
We've still got room to grow
Why don't you join me?

I'm just so irritated, this is some kinda hell
I wanna find some passion and completely lose myself
These thoughts of feeling worthless, they're not making you cool
Stop looking down, flip it around, your gift is originality

Boom Boom Boom!
Dancing through the skies
Get it off of your mind
Your problems piling way up high
Boom Boom Boom!
Dancing through the skies
You gotta show 'em you can fight
And reveal the wrong from right
(Come on, let's fly!)

Everybody put your hands up!
We'll be flying
Can you imagine it?
Search and you'll find
the stage you see within your dreams
The place where you're "the one"
That's where you're meant to be

(Flyin') Within these memories
(Flyin') That you're slowly forgetting
Just listen close to the song that lies within your soul!

Yeah yeah yeah yeah!
Whoa whoa whoa whoa!
Chu chu chu!
Ya ya ya!
Yeah yeah yeah yeah!
Whoa whoa whoa whoa!
Chu chu chu!
Ya ya ya!

Everybody put your hands up!
We'll be flying
Can you imagine it?
Search and you'll find
the stage you see within your dreams
The place where you're "the one"
That's where you're meant to be

Everybody put your hands up!
We'll be flying
Can you imagine it?
Search and you'll find
the stage you see within your dreams
The place where you're "the one"
That's where you're meant to be

(Flyin') Within these memories
(Flyin') That you're slowly forgetting
Just listen close to the song that lies within your soul!

Yeah yeah yeah yeah!
Whoa whoa whoa whoa!
Chu chu chu!
Ya ya ya!
