

With a smile wreaking havoc on the media
Makes you wanna know her secret, so mysterious
Hasn't got a flaw, she is an expert in that area
She's a master of a liar, none to rival her
Perfect genius idol sama
(You're my savior, you're my saving grace)

What did you eat today?
What book is on your brain?
When you just wanna have some fun, what place is your escape?
I haven't ate a thing
It's a secret, no telling
She dodges every question like a lion in the ring

She's so composed
And through it all she glows
And all the lies she weaves, brilliantly, are sweet just like honey
Confusing why why why
Another lie lie lie
So tell me, what's your type?
Girl or guy, please just answer me

Don't know what it's like to fall in love at all
Couldn't guess or express if that feeling I recall
Is it all a lie? I guess I'll never know
But I'll sing my song again
And make them fall heels over head, and then
They'll love me til the end

Every eye on you, you captivate the room
You're a flawless star, the most ultimate idol
Shooting by, the brightest in the sky
You're a cosmic light, reborn here tonight, ah

You smile heavenly
Your words of love so sweet
They captivate so easily it's almost like a dream
That glimmer in your eyes
Conceals the lies and love that may be fake
But it's now brought to life

Yea, yea we all know she is a special girl
We're the extras in her movie as she runs the world
Yeah, she's such a star, we are the bottom feeders, she's the pearl
She's our leading little lady, shit I think I'm-
Gonna be sick
Screw this chick
Would you be fine with their shoes to lick?
But that's just it, acting like she's the shit, would you not be jealous of it?
But it's all a lie - all just a trick of the light
I can't accept this is right
I won't lay down and die and let you steal what is rightfully mine

Every heart is hers, the worship she deserves
She's a flawless star, the most ultimate idol
Watch her shine, she's perfect by design

An iconic light, reborn here tonight

Ya show no weakness
Never let 'em see it - see it
If you're less than perfect best to keep it secret
Be the one and only! Just believe - lieve it
That's the purest love you'll ever find

With a smile setting fire to the media
Lies a secret I will keep cause I'm no amateur
"I'm in love with you" my career is built on such a lie
It's the only way I know to show my love in life
Running down my face, my sweat a clear blue Aqua
Ruby eyes that do disguise like secrets keep em hushed
I sing and I'm dancing for the masses, call me Maria
Yes, lying really is the greatest kind of love

I have no idea what love is even like
Is it something you give, or is it something you find?
All the lies I tell, I hope that they come true
May they find their own light and be brought to life
(I pray they will thrive)

So gimme your applause, cause I will have it all
No it's not enough, I'm such a greedy idol
How I wish to tell you from my lips
That you have my love, I promise you this

And so, I'll lie again but know
I'm praying there's way they hold a little hope
That they will come true someday
And I'm sorry, it's not fine
That I couldn't say the things I meant to you but now it's finally time

Ah, on the count of two
It's no longer a lie, let me say that it's true, I love you

(You're my savior
My true savior
My saving grace)
