

Imagination (Haikyuu!!)

AmaLee

There's blinding haze of heat
My heart nearly skips a beat
I get lost in the moment 'til you pat me on the back

Through the window of my heart
I can see a brand new start
Will you tell me what awaits us in the summer this year, Mr. Future?
Oh, come on, come on, come on
As long as there's a chance
Oh, come on, come on, come on
We'll unite oh-oh
There will always be a strong haze that will try and block tomorrow
But don't give in, don't let it win
Brush it off and push on through
Never give up, we can catch up
We will make it or die trying
Turn this imagination into something real
And race me to the top
Oh-oh
More than answers in a book
I need a certain kind of hope
Just a spark to inspire
The potential in my soul
Something wow and something woah
I once felt it long ago
And I'd give all a hundred percent of my life for one more, Mr. Future
Oh hello, hello, hello
Can you not hear my cry?
Oh hello, hello, hello
Answer oh-oh-oh
If I stumble, take a tumble
Go ahead, serve me another
And if I fall, I'll give it my all
'Cause the fall is half the fight
Never give up, we can catch up
Can we run like this forever?
In this imagination we're horizon bound
So race me to the top
Oh-oh
In the bitter wake of failure
A new hope became our savior
I swear, oh we will swallow down the bitter taste, baby
And taste sweet victory
There will always be a strong haze that will try and block tomorrow
But don't give in, don't let it win
Brush it off and push on through
Never give up, we can catch up
We will make it or die trying
Turn this imagination into something real
And race me to the top, oh-oh
Oh, and race me to the top
Oh-oh!
