

Legend of Mermaid (Mermaid Melody)

AmaLee

Colors on the wind
Floating from a different world
Greet the dawn with a song
To welcome the daybreak

It's a melody
I hear in my memory
Where I watch birds take flight
Off into the eastern sky

No time to waste can we escape
To a place where the treasure lies
Out here on the seven seas we will find
Our paradise

Can we be reborn in the wake of the storm
So that I can tell you the words of my heart
There is so much I would give to you
But in one life there is not enough time

Underneath the waves there is a melody
Telling our story of faraway lands
I'll sing along so I won't forget
So through this song
May the tale live on
