

# Long Shot

AmaLee

This is the fate that brought us here  
To watch my long shot

I feel like I am falling into a flame of lies  
Tell me what you want from me  
Try not to step back to where I still belong  
Looking for an escape from fate

I will cross my fingers  
Hoping not to be sacrificed  
I made a promise  
That I would never give up on hope  
We'll find the way  
Get ready for the time to come  
Chasing on after this one emerging silhouette  
Tryna find the reason  
Why I'm standing here alone  
Maybe it's already too late to go back  
Never forget the days we spent together in  
This never ending fate (never again)

Even if I right my wrongs  
And save you from our fate  
It's not enough  
It's not enough for me to break  
The rules that run this world  
I am never gonna leave you  
Never wanna lose you  
We'll make it in the end  
No backing down from fate  
I won't trust someone else's lie  
I love who I am

Blame me  
Definitely won't stop anything  
Make a list of everything  
Justify this cruel war

Scream into the void 'til  
All of me is lost and  
Swallowed by the darkness  
Leaving only my shadow

I will cross my fingers  
Hoping not to be sacrificed  
I made a promise  
That I would never give up on hope  
We'll find the way  
Get ready for the time to come  
Chasing on after this one emerging silhouette

(Break out)  
(Bring it)  
(There's no regret in being yourself)  
(It's all you)

No matter how many times it takes

I've made my mind  
To save us all  
To save us all for sure this time  
For you, I'll never give up

I will find a way to change  
This cursed and twisted fate  
We will make it in the end  
No matter what the cost  
I know what I have to do

Take this pain away from me  
Along with my heart  
That's not beating properly  
There's no way I can fail  
How I wish the future  
Could be one we will see

Tryna find the reason  
Why I'm standing here alone  
Maybe it's already too late to go back  
Never forget the days we spent together in  
This never ending fate  
(The show's not over yet, this is your fate)

Even if I right my wrongs  
And save you from our fate  
It's not enough  
It's not enough for me to break  
The rules that run this world  
I am never gonna leave you  
Never wanna lose you  
We'll make it in the end  
No backing down from fate  
I won't trust someone else's lie  
I love who I am
