

# Love Is War

Amalee

This love of mine has no place to go, and it feels like it's about to blow!  
Ahh—!

(Love Is War...)  
(But I'll be the victor) (War...)  
(I'll be the Victor...)  
(I'll be the victor)

The sun cannot shine with all of these large, black clouds of endless twilight  
It's impossible to see  
Will dawn come and erase the shadows that are haunting me?

Ah, the world around me is blurring out  
But even so, my love will shine there is no doubt  
What should I do?  
If I can't control the rage, and I turn our small quarrel into something more?

I'm a fool... but you know

I'll fight, shooting for your heart  
I'll tear the night apart  
The love of ours that I once cherished just became a war!  
I know I'll steal your gaze  
Make me who you adore  
When I shoot at your heart  
I know I'll surely hit the mark!

(Love Is War)  
(But I will be the victor...)  
(I'll be the victor)

Oh, why does everything I touch break into pieces?  
Even my own heart?

I scream your name and reach out my hand to yours  
But you don't take it because you're holding hers

Ah, the sky cleared, curing all my blindness  
But I hid 'cause... the Light doesn't suit me at all  
(I will be the victor... I'll be the victor)  
What should I do?  
If I can't control the rage, and I turn our small quarrel into something more?

This is not our goodbye  
There's no way that I'll break and cry  
'Cause I love you

I'll fight, shooting for your heart  
I'll tear the night apart  
The love of ours that I once cherished just became a war!  
I know I'll steal your gaze  
Make me who you adore  
When I shoot at your heart  
I know I'll surely hit the mark!

Ahh

Be prepared for when we meet  
Even though I have a weakness  
There's no way I'll be beat

Love seems sweet, secretly it blinds  
But I'll become the victor so your kiss opens my eyes

(Ooo Love Is War...)

(Be prepared for when we meet)

(Even though I have a weakness)

(There's no way I'll be beat)

(Love seems sweet...)

(She has you now)

(But I'll be the victor... I'll be the victor)

(I'll be the victor)
