

# Metamorphosis

AmaLee

Oh tell me how you sleep at night  
Cause what you did to me is making all my dreams into nightmares  
I gotta come up for air  
I followed you, followed your light  
But maybe all this time my love made me blind  
Now it's time to play fair  
Darkness naming her heir

Was it nothing more than all a game to you  
Was I the moth and you the flame?

Oh you should be afraid  
Cause now I've locked away  
The girl that you had known  
The girl you betrayed  
Can't resist, can't resist it  
Can't resist my metamorphosis  
My metamorphosis

The pain made me strong - It's where I belong  
No little bird in her cage singing her little songs  
And it makes me laugh everytime I look back  
When I believed I couldn't be anything more than that

I followed you followed your light  
Fell straight off of the edge but I'm taking flight  
Now it's time to play fair  
Darkness crowning her heir

Was it nothing more than all a game to you  
Was I the moth and you the flame?

Oh you should be afraid  
Cause now I've locked away  
The girl that you had known  
The girl you betrayed  
Can't resist, can't resist it  
Can't resist my metamorphosis  
My metamorphosis

Boy it's such a shame  
It had to end this way  
Gave my heart and gave my soul  
I gave it all to you and more  
Boy it's such a shame  
I'm standing on your grave  
But I'm no longer the moth no baby I'm the flame

Oh you should be afraid  
Cause now I've locked away  
The girl that you had known  
The girl you betrayed  
Can't resist, can't resist it  
Can't resist my metamorphosis  
My metamorphosis
