

# Mirror

AmaLee

With our shadows aligned  
Two worlds, yours and mine  
Now as one in the moonlight  
Our reflections, they flow  
Melting, monochrome  
Deep in my soul

I can feel as our hearts  
Grow closer with each memory we are sharing  
Linked together at last  
I feel the strength within our bones  
Though full of scars

Is there something you need? Tell me what I can do  
'Cause my whole world is pulling me only to you  
Back then, when our promise was made, I knew  
That forever, I'd follow you

Open your eyes to a crystal-clear sky  
Not one cloud in sight to block our vision anymore  
I hear your voice, it's like a lullaby  
You say, "I'll be here until the end of time"

I wanna see you happy, smiling  
That's all that I need  
So when I turn and look in the mirror  
There's a smile glimmering back at me

What keeps you up at night?  
Your fears speak to mine  
So we talk till the sunrise  
I don't feel so alone  
Whenever you are close to me  
Don't you agree?

I know you don't believe that you're one of kind  
But I wish you could see just how brightly you shine  
I see you for you, and I know it's fate  
No one could ever take your place

I don't know why when I see you face, I  
Can't put into words the way it makes me want to fly  
Know that you're not alone, I'm by your side  
To your voice, I hear my heart answer in kind

Don't ever hide from the trials in life  
The tears that you cry  
I swear I'll always brush them away  
Even through the long and lonely nights

Bright as starlight, the tears in your eyes  
They reflect the beauty inside  
In your heart, don't you feel we're as one?  
Cause I feel it in mine!

Open your eyes to a crystal-clear sky  
Not one cloud in sight to block our vision anymore

I hear your voice, it's like a lullaby  
To your voice, I hear my heart answer in kind

I wanna see you happy, smiling  
That's all that I need  
So when I turn and look in the mirror  
There's a smile glimmering back at me

As long as you are always here with me
