Monster U Made

AmaLee

There's a madness I can't fight
And it calls to me at night
Where it whispers of the things I could be
You have nightmares, I have mine
Do yours keep you up at night?
Cause mine sing me off to sleep

I was a mistake so you cast me off aside
Like that's all I'd ever be
Like it's all I'd ever be
But I'm back to take everything that's rightly mine
And we all have you to thank
Yeah we all have you to thank

So when you next hear my name

Know I'm the monster that you made
That you made, that you, that you made
Know I'm the monster that you made
That you made
Maybe I, maybe I, I like it this way

(I like it this way)
(I'm a monster)

Why be good that doesn't sound as fun
Yeah I tried it once and then the high was done
But lemme tell you there is something bout the dark that really makes me fee
l alive
It's so addicting, I do all I can to have
That feeling crawling back again
It's like you're falling but you rise, makes you wanna spread your wings and
 fly

You think you're special but you're not
You and your ego can go rot
'Cause I'm only the thing you've done right, and that's sayin' a lot
But don't let that get to your head
'Cause babe, you're just as good as dead
I paid the price, but thanks to you this darker side is all mine

Know I'm the monster that you made
That you made, that you, that you made (that you made)
Know I'm the monster that you made
That you made
Maybe I, maybe I, I like it this way

Know I'm the monster that you made (I'm the monster)
That you made, that you, that you made (that you made)
Know I'm the monster that you made
That you made
Maybe I, maybe I, I like it this way
