Of love I will scream  
Echoing eternally  
I hold everything I can  
And it's slipping through my hands  
But at last we've found a light to guide us

Never wavering  
Our emotions flying free  
Living on the edge of hope  
Toward your light I'll always go  
Cause the dream we've always shared  
Leads to you

One day soon with you  
I know that we will bring to life  
A new beginning  
Warm and bright  
Cause your gentle voice could change the world  
And I know it would only take a single word

No one can do everything alone  
Not a single soul can do it on their own  
But together as one I know we can  
We can fly come on let's try  
Just take my hand

Of love I will scream  
Echoing eternally  
No one knows you more than I  
Like two planets we collide  
And the light that shines within will guide us

Never wavering  
Our emotions set us free  
Living on the edge of hope  
Toward your light I'll always go  
Cause the dream we've always shared  
Leads to you

Every time I try the fear of failure spits me out  
And I take someone I love down  
And the truth it only hits me then  
A realization of just how blind I've been

It was you who pulled me from the dark  
When your words they broke the cage  
Around my heart  
And although it's something yet unseen  
I was changed  
The day you came  
And called to me

There's a storm that lies  
Hidden deep within your eyes  
Like a tempest life will sway  
From it, never shy away  
Hold the passion close and never look back

Let's start a journey  
Through these days now sparkling  
Living on the edge of hope  
Toward your light I'll always go  
Cause the dream we've always shared  
Leads to you

I don't want to lose to anger and sadness  
Like a light I will break through that darkness  
Through I can't stop from shaking  
The risk worth taking  
To rise and face my fears  
I don't care if the entire world laughs at me  
Will you hear me out these words they need to be set free  
These are the words I swear by  
I'll keep you safe, I'm  
Forever right here at your side!

Of love I will scream  
Echoing eternally  
I hold everything I can  
And it's slipping through my hands  
But at last we've found a light to guide us

Never wavering  
Our emotions flying free  
Living on the edge of hope  
Toward your light I'll always go  
Cause the dream we've always shared  
Leads to you  
Leads to you!
