

# New Genesis

AmaLee

We can choose the way of our future  
Try a brand new path, if I change the world  
If I change the world

Say goodbye to everyone who stands against us  
No one has the power to stop a change that come through music  
No, you can't stop magic  
Close your eyes and you can see the future before you  
Every note I sing is bringin' you closer to your purpose  
Once you're there, don't let go

You wanna play a real game, unfurl the chain  
Melody strung out like we're walkin' on a tight rope  
Don't wanna try, don't wanna cry, wanna forget  
Just wanna live inside a dreamland  
I wanna be free  
And let a brand new era dawn  
I know that we can  
Create a new world!

We can choose the way of our future  
Try a brand new path, if I change the world  
If I change the world  
This boundless music brings transformation  
Messages in song reach even further  
This dream will come true  
I believe in you

Say goodbye to everything that's weighing you down  
Transcend beyond reality to colorful worlds of music  
We need to keep on rising  
Close your eyes and take my hand, we're runnin' together  
We don't have to live like this, I know we can all do better  
I sing for liberation

You wanna play a real game, unfurl the chain  
Melody lighting up the path to new horizons  
Don't wanna try, don't wanna cry, wanna forget  
Just wanna live inside a dreamland  
I wanna be free  
And let a brand new era dawn  
I know that we can  
Create a new world!

We can choose the way of our future  
Try a brand new path, if I change the world  
If I change the world  
This boundless music brings transformation  
Messages in song reach even further  
Reach even further  
A new genesis

A new genesis
