

## Oath Oracle

AmaLee

All over the street shining the old neon  
In endless rain, what have you had become?  
How many times I wanna wake you up  
Given you up, go up on my own way alone

Who we are? How far we've gone?  
Let us heal the misery  
And plant the seed we ever promised  
Time is up  
Go grab your arms  
No matter how hard we have been  
We shall fight forever

I hear it from no one  
It occur to me the old world  
And I may have said no word  
But I have to keep knowing  
I hear it from no one  
It occur to me the old world  
It may have said no word  
But I have to keep knowing

No one would be able to look down upon this world  
So one is allowed to be born

We've known what to believe  
Without any doubt  
Without any doubt  
Never let us down  
We have taken the road for the promise true  
For the promise true  
Despite the day of doom
