

Question

AmaLee

Within my mind, there are only thoughts of you
I'm at a loss, I can't figure out what to do
Aim at your heart, I'll lock on
Yeah, I'm gonna win it! (I swear it!)

The days I wished I was cool are in the past
I gave my all, just so make sure that it would last
But it would seem there's one battle left here that I missed
Take a hint! (I won't quit!) I got this!
Don't count me out cause I'm all warmed up now!

"If you're knocked down, turn it around"
Why does it always seem to end up this way?
I hear your voice, one I avoid
'Cause it tears me in two
Every time I'm near you

One thousand times, ten thousands times
I have tried but these feelings are not for words
Crushing them down, forcing them out
But what else can I say
So you won't run away

Question! Question! Tell me why
Question! Question! How did I
Question! Question! Know you were
Somewhere out there in this endless world

Question! Question! Tell me how
Question! Question! You feel now
Question! Question! That you are
Oh so close but you feel so far away

There's only one who can see me for who I am
Yeah, it is you and I feel I can breathe again
I'll hone my skills till they're strong enough to break steel (appeal!)

Seems as of late, there's more enemies at my back
Not gonna wait for a sniper's surprise attack
'Cause at this rate someone's gonna snatch far right away! (and I'll break)
It's in vain (this heartache!)
It picked me up just to knock me back down -

You took my hand - Helping me stand
Asking me with a smile if I was alright
And that was it - I was love sick
The way that you looked at me
I could die happily

One thousands times - Ten thousand times
I will endure the pain of a breaking heart
But when I'm sad, I'll always have
This memory so I know there's hope in tomorrow

Question! Question! I wonder
Question! Question! If you were
Question! Question! Looking at

Me by chance, but I really doubt that

Question! Question! With a smirk
Question! Question! But no words
Question! Question! It seemed you were
Nodding yes but my whole world is a blur

So please tell me

"If you're knocked down, turn it around"
Why does it always seem to end up this way?
I hear your voice, one I avoid
'Cause it tears me in two
Every time I'm near you

One thousand times, ten thousands times
I have tried but these feelings are not for words
Crushing them down, forcing them out
But what else can I say
So you won't run away

Question! Question! Tell me why
Question! Question! How did I
Question! Question! Know you were
Somewhere out there in this endless world

Question! Question! Tell me how
Question! Question! You feel now
Question! Question! That you are
Oh so close but you feel so far away!
