

## Show Time

AmaLee

One day, all your mistakes will grey and fade away  
There's a world out there  
Waiting and made for you  
Or so they say

At last, maybe this path could be a second chance  
It's a brand new tune that we can dance to  
So join me on the stage

It is a mystery  
What fate may hold for me, but  
The spotlight - it shines  
Maybe it's a sign, my love  
I'll make it mine

Show time  
Hurry on up 'cause now's the time  
Turn the beat up and leave the past behind  
Ready, set, go  
Or you never will know the spotlight

Reach for my hand and we'll ignite  
You'll understand as words, they come to mind  
Ready, set, go  
Or you never will know  
Just go with the flow, because now it's
